

RETRACTION: "FOREVER MARILYN" SCULPTURE INSTALLATION

PALM SPRINGS, CA, October 31, 2019:

On September 30, 2019, PS Resorts circulated a press release announcing the return of the Forever Marilyn statue to Palm Springs and its placement on the grounds of the Town and Country Center.

The press release stated: "The successful completion of this project comes thanks to many key members of the Palm Springs political, tourist and cultural arenas, including Grit Development and the Palm Springs Preservation Foundation."

This statement inaccurately represents the Palm Springs Preservation Foundation's support for placing the Marilyn statue in the Town and Country Center.

Please retract our previous statement and replace it with, "The successful completion of this project comes thanks to many key members of the Palm Springs political, tourist and cultural arenas, including Grit Development."

About PS Resorts: PS Resorts was founded in 2010 for the purpose of promoting tourism through events and attractions in Palm Springs. The organization is a non-profit private-public partnership of City and local tourism industry leaders.
